

Additional information about the Contract Notice

EUMM-24-9134

Emergency Medical Services 2024-2028

Georgia

Please note that the awarding of the contract is subject to the condition of the prior conclusion of a financing agreement, which does not modify the elements of the procurement procedure (this will be the case, for instance, if the budget initially foreseen is different or if the timeframe, the nature or the condition of the implementation are altered). If the precedent condition is not met, the contracting authority will either abandon the procurement or cancel the award procedure without the candidates or tenderers being entitled to claim any compensation.

1. Nature of contract

Fee-based service contract

2. Programme title

Council Decision (CFSP) 2022/2318 of 25 November 2022

3. Financing

CFSP/2022/38/EUMM Georgia

4. Legal basis, eligibility and rules of origin

The legal basis of this procedure is Article 58(2) of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union.

Participation in this procurement procedure is open on equal terms to all natural and legal persons falling within the scope of the Treaties.

Participation is also open to international organisations.

5. Candidature

All eligible natural and legal persons (as per item 4 above) or groupings of such persons (consortia) may participate or tender.

A consortium may be a permanent, legally established grouping or a grouping which has been constituted informally for a specific procurement procedure. All partners of a consortium (i.e., the leader and all other partners) are jointly and severally liable to the contracting authority.

The participation or tender of an ineligible natural or legal person will result in the automatic exclusion of that person. In particular, if that ineligible person belongs to a consortium, the whole consortium will be excluded.

6. Number of requests to participate or tenders

No more than one request to participate or tender can be submitted by a natural or legal person whatever the form of participation (as an individual legal entity or as leader or partner of a consortium submitting a request to participate or tender). In the event that a natural or legal person submits more than one request to participate or tender, all requests to participate or tenders in which that person has participated will be excluded.

In case of lots, the candidates or tenderers may submit only one request to participate or tender per lot. Contracts will be awarded lot by lot and each lot will form a separate contract.

7. Grounds for exclusion

Candidates must submit a signed declaration, included in the request to participate form, to the effect that they are not in any of the situations listed in Section 2.6.10.1 of the **practical guide**

(PRAG). Where the candidate intends to rely on capacity providing entities or subcontractor(s), he/she must provide the same declaration signed by this/these entity(ies).

Candidates included in the lists of EU restrictive measures (see Section 2.4. of the PRAG) at the moment of the award decision cannot be awarded the contract.

8. Sub-contracting

Sub-contracting is allowed. However, the maximum percentage of the contract value, which may be subcontracted is 49 %.

Emergency Medical Service Provider (EMSP) / Contractor must render all substantive services by itself. No sub-contracting of substantive services shall be allowed except for, inter alia, PCR testing, ICU beds reservation and Helicopter services, which could be performed by **sub-contractors**, whose **involvement shall be in advance authorised by EUMM**.

9. Number of candidates to be short-listed

On the basis of the request to participate received, between 4 and 8 candidates will be invited to submit detailed tenders for this contract. If the number of eligible candidates meeting the selection criteria is less than the minimum of 4, the contracting authority may invite the candidates who satisfy the criteria to submit a tender. If the number of eligible candidates meeting the selection criteria is more than the maximum allowed, the contracting authority will rank them using the re-examination criteria stated below.

10. Short-list alliances prohibited

Any tenders received from tenderers having a different composition than the ones mentioned in the short-listed request to participate forms will be excluded from this restricted tender procedure, unless prior approval from the contracting authority has been obtained – see practical guide 2.6.3. Short-listed candidates may not form alliances or subcontract to each other for the contract in question.

11. Provisional date of invitation to tender

June 2024.

12. Provisional commencement date of the contract

November 2024

13. Period of implementation of tasks

The implementation period of the contract is 48 (forty-eight) months starting from 15 December 2024.

It should be noted that the performance of this contract is subject to and conditional upon (i) the signature of a financing agreement between the European Commission and the EUMM covering the contractual period within its maximum period from 15 December 2024 until 14 December 2028, as well as (ii) the availability of funds in the relevant budget line(s).

14. Language of the procedure

All written communications for this tender procedure and contract must be in English.

15. Additional information

Financial data to be provided by the candidate in the request to participate form or in the tender submission form must be expressed in EUR. If applicable, where a candidate refers to amounts originally expressed in a different currency, the conversion to EUR shall be made in accordance with the InforEuro exchange rate of May 2024, which can be found at the following address: <http://ec.europa.eu/budget/graphs/inforeuro.html>.

SELECTION AND AWARD CRITERIA

16. Selection criteria

Capacity-providing entities

An economic operator (i.e. candidate or tenderer) may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. If the economic operator relies on other entities, it must in that case prove to the contracting authority that it will have at its disposal the resources necessary for the performance of the contract by producing a commitment by those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality as the economic operator relying on them and must comply with the selection criteria for which the economic operator relies on them. **Furthermore, the data for this third entity for the relevant selection criterion should be included in a separate document.** Proof of the capacity will also have to be provided when requested by the contracting authority.

With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the economic operator relies, become jointly and severally liable for the performance of the contract.

The following selection criteria will be applied to candidates. In the case of requests to participate submitted by a consortium, these selection criteria will be applied to the consortium as a whole if not specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

The candidate shall not use previous experience which caused breach of contract and termination by a contracting authority as a reference for selection criteria.

The selection criteria for each tenderer are as follows:

- 1) Economic and financial capacity** (based on item 3 of the request to participate form, or on item 3 of supply tender form). In case of candidate being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three years for which accounts have been closed.
 - The average annual turnover of the candidate or tenderer for the years 2021, 2022 and 2023 for which accounts have been closed must exceed or be equal to 700.000,00 EUR; and
- 2) Professional capacity** (based on items 4 and 5 of the request to participate form for service contracts and on items 4 and 5 of the tender form for supply contracts). The reference period which will be taken into account will be the last three years preceding the submission deadline.
 - The candidate must hold valid operating licence in the field of medical services issued by a duly recognized official governmental licencing authority of the country of its registration and
 - The candidate has at least 25 permanent staff currently working in areas related to this contract.
- 3) Technical capacity** (based on items 5 and 6 of the request to participate form for service contracts and on items 5 and 6 of the tender form for supply contracts). The reference period which will be taken into account will be the last three years from submission deadline.

- The candidate has successfully completed during the last three years (2021, 2022, 2023) at least one project similar to the one covered by this contract. The value of such project shall amount to at least to 300,000.00 EUR.

This means that the contract the candidate refers to could have been started at any time during the indicated period but it does not necessarily have to be completed during that period, nor implemented during the entire period. Candidates are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. Only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (statement or certificate from the entity which awarded the contract, proof of payment) also detailing its value. If a candidate has implemented the project in a consortium, the percentage that the candidate has successfully completed must be clear from the documentary evidence, together with a description of the nature of the services provided/supplies delivered if the selection criteria relating to the pertinence of the experience have been used.

If more than 8 eligible candidates meet the above selection criteria, the relative strengths and weaknesses of the request to participate of these candidates must be re-examined in order to rank them and identify the 8 best requests to participate for the tender procedure. The only additional comparative criteria that which will be taken into consideration during this re-examination, in the order in which they appear below, are:

- the highest number of projects that meet criterion 3.1;
- the highest cumulated value of the projects that meet criterion 3.1.

N.B.: additional comparative criterion No 1 shall be applied to all the eligible candidates that meet the selection criteria. If, after applying additional comparative criterion No 1, it is not possible to identify the 8 best candidates because two or more candidates are tied for the 8th position, additional comparative criterion No 2 shall be applied only to these tied candidates.

17. Award criteria

Best price-quality ratio (of the tender procedure per se – not applicable to shortlisting of applications).
